Want to start using CASE in your agricultural education program? 

Attend a CASE Institute!

- CASE Institutes are intense professional development led by practicing CASE teachers.
- The CASE curriculum is free to those who successfully complete a CASE Institute.
- Institutes are hosted by affiliated universities and colleges across the United States each summer.
- CASE teachers receive complimentary updates to the curriculum and many other services throughout their careers.
- For a complete listing of upcoming CASE Institutes and certification information, please visit www.case4learning.org and click on “Professional Development.”
Natural Resources and Ecology

All CASE pathways begin with the *Introduction to Agriculture, Food, and Natural Resources* course, then branch into four areas which focus on animals, plants, agricultural engineering, and natural resources.

The Natural Resources pathway includes the foundation course *Natural Resources and Ecology* and progresses to the specialization course *Environmental Science Issues*. All CASE pathways culminate with the capstone course *Agricultural Research and Development*.

Natural Resources and Ecology

*CASE provides teachers hands-on professional development to facilitate instruction.*

We are grateful to CSX, Mosaic, and the CHS Foundation for sponsoring the CASE *Natural Resources and Ecology* course as a special project through the National FFA Foundation.
